Artist's Statement:

"Painting should go deeper than copying nature as it is. It should be a personal response and a characterization of what is before us and in harmony with it. I try to understand a scene, but not intellectually. I can paint it how it is, that's easy. The interpretation of the thing that's underneath—what gives it life—I'd like to find. The energy that makes it. In essence I am trying to paint what cannot be painted."
